

CENTRAL WATER LINE WASHDOWN STATIONS

Complete point-of-use washdown assemblies for facilities with a central hot or cold water supply

A COMPLETE WASHDOWN CONNECTION IN ONE KIT

Strahman Drop-Down Line Kits create dedicated washdown points from an available single hot or cold water supply. Each coordinated package combines the hose station, industrial hose, Hydro-Pro 150® spray nozzle, and Swivel-Pro adapter - simplifying product selection while giving facilities the flexibility to choose the station construction, valve style, hose length, and color that fit the application.

IDEAL FOR FACILITIES THAT:

- ✓ Already distribute hot or cold water through a central line
- ✓ Need multiple convenient cleaning points throughout production areas
- ✓ Want a coordinated station, hose, nozzle, and swivel package
- ✓ Need choices in valve style, construction, hose length, and color
- ✓ Prefer a standardized washdown solution across the facility

ONE COMPLETE KIT. THREE STATION OPTIONS.

WHY FACILITIES CHOOSE DROP-DOWN LINE KITS

SIMPLIFY SPECIFICATION

ESSENTIAL POINT-OF-USE COMPONENTS ARE PACKAGED AS ONE COORDINATED ASSEMBLY.

COST SAVINGS

MORE ECONOMICAL BUYING A COMPLETE ASSEMBLY AS OPPOSED TO BUYING INDIVIDUAL COMPONENTS

STANDARDIZE WASHDOWN POINTS

CREATE A CONSISTENT EQUIPMENT APPROACH ACROSS PRODUCTION AND SANITATION AREAS.

CONFIGURE FOR THE WORK AREA

SELECT HOT OR COLD SERVICE PLUS HOSE COLOR AND REACH TO SUIT FACILITY PRACTICES.

BUILT AROUND THE WASHDOWN POINT

A practical way to extend dependable cleaning access from a central water supply

HOW THE SOLUTION WORKS

Where a facility already has a suitable hot or cold water distribution line, a Drop-Down Line Kit provides the equipment needed at the point of use. Instead of sourcing and matching individual components, the kit brings the station, hose, spray nozzle, and swivel together in a defined configuration.

WHAT IS INCLUDED

- ✓ Single-water hose station - M-120, M-156N, or M-756
- ✓ Industrial extruded hose assembly - 5/8-in. ID with 3/4-in. male NPT connection
- ✓ Hydro-Pro 150® spray nozzle for industrial washdown
- ✓ Swivel-Pro adapter to improve hose/nozzle handling

KEY FEATURES & BENEFITS

- ✓ Hot- or cold-water configurations to match the connected supply
- ✓ Three station platforms to fit material and valve-style preferences
- ✓ 25-, 50-, 75-, or 100-ft hose lengths for the required cleaning reach
- ✓ Black, white, or yellow hose options to support facility preferences and visual organization
- ✓ Coordinated nozzle colors: white hose/white nozzle; black or yellow hose/black nozzle
- ✓ Complete-package convenience helps reduce component-selection complexity

SELECT THE RIGHT CONFIGURATION

STATION	WATER SERVICE	HOSE COLOR	HOSE LENGTH
M-120 Stainless Steel Ball Valve Drop-Down Line Kit	Hot or Cold	Black, White or Yellow	25', 50', 75', 100' or custom size in between
M-156 Bronze Globe Valve Drop-Down Line Kit	Hot or Cold	Black, White or Yellow	25', 50', 75', 100' or custom size in between
M-756 Stainless Steel Globe Valve Drop-Down Line Kit	Hot or Cold	Black, White or Yellow	25', 50', 75', 100' or custom size in between
